

# Adding AND Subtracting – 1.12

The order of the numbers **matters** when we **subtract**.

1.

$7 - 5 = \square$

2.

$4 + 3 = \square$

3.

$4 + 2 = \square$

4.

$7 - 2 = \square$

5.

$3 - 1 = \square$

6.

$5 - 3 = \square$

7.

$6 - 4 = \square$

8.

$2 + 2 = \square$

9.

$1 + 4 = \square$

10.

$5 + 2 = \square$

11.

$3 - 2 = \square$

12.

$7 - 4 = \square$

13.

$5 + 2 = \square$

14.

$6 - 3 = \square$

15.

$1 + 6 = \square$

16.

$7 + 0 = \square$
