

# Adding and Subtracting – 2.4

It does not matter which number comes first when we add.

1.  $2 - 1 = \square$

2.  $8 - 6 = \square$

3.  $7 + 3 = \square \square$

4.  $5 + 6 = \square \square$

5.  $6 - 2 = \square$

6.  $9 + 2 = \square \square$

7.  $4 + 5 = \square$

8.  $6 - 1 = \square$

9.  $2 + 8 = \square \square$

10.  $2 + 9 = \square \square$

11.  $5 - 2 = \square$

12.  $7 - 3 = \square$

13.  $4 + 3 = \square$

14.  $6 + 5 = \square \square$

15.  $10 - 2 = \square$

16.  $7 + 4 = \square \square$
