

Fast Adding With 10s – 3.2

Add up these numbers — using 10s whenever you can.

The grid contains nine addition problems, each with a horizontal line under the second number. The numbers are arranged in columns, with the first number on the left and the second on the right. The numbers are highlighted in light blue and light yellow. A vertical number line on the right side of the grid is labeled from 0 to 19.

1. $\begin{array}{r} 33 \\ + 24 \\ \hline \end{array}$

2. $\begin{array}{r} 12 \\ + 15 \\ \hline \end{array}$

3. $\begin{array}{r} 26 \\ + 34 \\ \hline \end{array}$

4. $\begin{array}{r} 50 \\ + 18 \\ \hline \end{array}$

5. $\begin{array}{r} 35 \\ + 15 \\ \hline \end{array}$

6. $\begin{array}{r} 47 \\ + 22 \\ \hline \end{array}$

7. $\begin{array}{r} 24 \\ + 48 \\ \hline \end{array}$

8. $\begin{array}{r} 20 \\ + 29 \\ \hline \end{array}$

9. $\begin{array}{r} 33 \\ + 32 \\ \hline \end{array}$

10 = 5 + 5 = 6 + 4 = 7 + 3 = 8 + 2 = 9 + 1
