

Graphing – 1.0

Make a bar graph using the information in the story.

The children in Ms. Black's class have had four math tests. She has now asked each student to graph their scores. Jenny got **75% on Test #1**, **70% on Test #2**, **90% on Test #3** and **100% on Test #4**. What should her graph look like?

Jenny's Math Test Scores
