

# Learning To Divide – 1.25

Find the answer to each of these division questions. It may help to create a diagram like the one shown in the model.

EXAMPLE

$34 \div 5 =$

$34 \div 5 = 6 \text{ R } 4$

1)  $29 \div 4 =$

---

2)  $30 \div 4 =$

---

3)  $43 \div 5 =$

---

4)  $52 \div 5 =$

---

5)  $39 \div 6 =$

---

6)  $53 \div 6 =$

---
