

Learning To Divide – 1.26

Find the answer to each of these division questions. It may help to create a diagram like the one shown in the model.

EXAMPLE

$34 \div 5 =$

$34 \div 5 = 6 \text{ R } 4$

1) $58 \div 6 =$

2) $75 \div 9 =$

3) $56 \div 10 =$

4) $69 \div 8 =$

5) $35 \div 3 =$

6) $43 \div 4 =$
