

WAYS TO IMPROVE YOUR SPELLING

Take an interest in words.

Many people who do poorly in spelling have just given up!

Look for patterns.

English is absolutely full of them!

Learn how syllables work.

There are only six different kinds – and they play a big role in spelling.

Use multi-sensory practice strategies.

Some good ones can be found here: www.thrive4kids.ca/spelling-strategies.html

Practice with a sympathetic friend.

Play word games like Boggle, Hangman and Scrabble.

Keep this dictionary handy while you write.

Look up words (or lists) that you need! Personalize the pages! Make it your own!

Practice often and review previously-learned words.

Research proves that it's more effective to study regularly than to cram for tests.

Learn about prefixes and suffixes.

They can help you to figure out the spelling and meaning of all kinds of words!

Created by Tyson Schoeber for use in THRIVE but freely shared with anyone who can make use of it! Feedback and suggestions are welcome.
