## Spring Time

Get rid of the sled! The winter is past! It is spring time again!

What is spring like? It can be sunny and warm. It can be cool and wet. Drip, drip, drip!

The robins are back. They make nests for their eggs. There will be baby robins in a bit. Lots of other animals are born in the spring, too.

We can also see more color. The grass is green and soft. There are lots and lots of green plants in the spring.

We can see ducks and frogs in the pond as well. There will be baby ducks and baby frogs, too!

Spring lasts for three months. Then it will be summer again.

---
