

# The Times Tables — 1.4

The ORDER of the numbers does NOT matter when you multiply.

1.  $1 \times 6 = \square$

2.  $4 \times 1 = \square$

3.  $3 \times 0 = \square$

4.  $1 \times 5 = \square$

5.  $1 \times 9 = \square$

6.  $1 \times 10 = \square \square$

7.  $10 \times 1 = \square \square$

8.  $8 \times 0 = \square$

9.  $1 \times 11 = \square \square$

10.  $6 \times 1 = \square$

11.  $5 \times 1 = \square$

12.  $0 \times 2 = \square$

13.  $1 \times 8 = \square$

14.  $9 \times 1 = \square$

15.  $1 \times 7 = \square$

16.  $1 \times 4 = \square$
