

# The Times Tables — 1.9

When we multiply by 2, the answer is **double** what we started with.

1.  $2 \times 2 = \square$

9.  $5 \times 2 = \square\square$

2.  $6 \times 2 = \square\square$

10.  $2 \times 4 = \square$

3.  $2 \times 9 = \square\square$

11.  $9 \times 2 = \square\square$

4.  $2 \times 5 = \square\square$

12.  $3 \times 2 = \square$

5.  $3 \times 2 = \square$

13.  $2 \times 6 = \square\square$

6.  $2 \times 0 = \square$

14.  $2 \times 8 = \square\square$

7.  $4 \times 2 = \square$

15.  $7 \times 2 = \square\square$

8.  $2 \times 7 = \square\square$

16.  $2 \times 3 = \square$
