

# The Times Tables — 4.11

We're now adding the NINE Times Tables into the mix.

1.  $2 \times 6 = \square\square$

14.  $7 \times 3 = \square\square$

27.  $2 \times 2 = \square$

2.  $4 \times 11 = \square\square$

15.  $7 \times 11 = \square\square$

28.  $5 \times 9 = \square\square$

3.  $3 \times 3 = \square$

16.  $6 \times 12 = \square\square$

29.  $9 \times 6 = \square\square$

4.  $5 \times 4 = \square\square$

17.  $4 \times 9 = \square\square$

30.  $8 \times 6 = \square\square$

5.  $9 \times 2 = \square\square$

18.  $3 \times 8 = \square\square$

31.  $7 \times 2 = \square\square$

6.  $8 \times 3 = \square\square$

19.  $3 \times 5 = \square\square$

32.  $5 \times 8 = \square\square$

7.  $7 \times 5 = \square\square$

20.  $6 \times 6 = \square\square$

33.  $5 \times 6 = \square\square$

8.  $8 \times 8 = \square\square$

21.  $9 \times 7 = \square\square$

34.  $10 \times 3 = \square\square$

9.  $9 \times 5 = \square\square$

22.  $5 \times 5 = \square\square$

35.  $1 \times 9 = \square$

10.  $4 \times 6 = \square\square$

23.  $3 \times 2 = \square$

36.  $2 \times 9 = \square\square$

11.  $4 \times 3 = \square\square$

24.  $8 \times 10 = \square\square$

37.  $3 \times 12 = \square\square$

12.  $8 \times 5 = \square\square$

25.  $4 \times 5 = \square\square$

38.  $6 \times 3 = \square\square$

13.  $10 \times 9 = \square\square$

26.  $5 \times 12 = \square\square$

39.  $6 \times 10 = \square\square$
