

The Times Tables — 4.12

It does not matter which number comes first when we multiply.

1. $3 \times 6 = \square\square$
2. $5 \times 11 = \square\square$
3. $6 \times 4 = \square\square$
4. $2 \times 12 = \square\square$
5. $7 \times 4 = \square\square$
6. $2 \times 3 = \square$
7. $8 \times 4 = \square\square$
8. $5 \times 7 = \square\square$
9. $9 \times 4 = \square\square$
10. $10 \times 10 = \square\square\square$
11. $5 \times 2 = \square\square$
12. $8 \times 7 = \square\square$
13. $9 \times 7 = \square\square$
14. $4 \times 2 = \square$
15. $6 \times 5 = \square\square$
16. $4 \times 10 = \square\square$
17. $6 \times 7 = \square\square$
18. $3 \times 11 = \square\square$
19. $2 \times 5 = \square\square$
20. $8 \times 2 = \square\square$
21. $8 \times 12 = \square\square$
22. $6 \times 11 = \square\square$
23. $5 \times 10 = \square\square$
24. $3 \times 7 = \square\square$
25. $7 \times 7 = \square\square$
26. $9 \times 8 = \square\square$
27. $7 \times 9 = \square\square$
28. $6 \times 0 = \square$
29. $4 \times 8 = \square\square$
30. $6 \times 9 = \square\square$
31. $8 \times 11 = \square\square$
32. $9 \times 9 = \square\square$
33. $6 \times 3 = \square\square$
34. $4 \times 7 = \square\square$
35. $6 \times 8 = \square\square$
36. $9 \times 3 = \square\square$
37. $10 \times 11 = \square\square\square$
38. $5 \times 12 = \square\square$
39. $1 \times 6 = \square$
