

The Times Tables — 4.13

The facts that are printed in black were studied in earlier units.

1. $5 \times 3 = \square\square$
2. $3 \times 10 = \square\square$
3. $7 \times 5 = \square\square$
4. $8 \times 10 = \square\square$
5. $9 \times 4 = \square\square$
6. $10 \times 12 = \square\square\square$
7. $2 \times 8 = \square\square$
8. $4 \times 4 = \square\square$
9. $6 \times 5 = \square\square$
10. $7 \times 6 = \square\square$
11. $8 \times 9 = \square\square$
12. $9 \times 10 = \square\square$
13. $9 \times 11 = \square\square$
14. $8 \times 5 = \square\square$
15. $2 \times 11 = \square\square$
16. $2 \times 4 = \square$
17. $6 \times 2 = \square\square$
18. $7 \times 8 = \square\square$
19. $9 \times 6 = \square\square$
20. $7 \times 4 = \square\square$
21. $3 \times 4 = \square\square$
22. $3 \times 9 = \square\square$
23. $6 \times 12 = \square\square$
24. $8 \times 6 = \square\square$
25. $9 \times 12 = \square\square\square$
26. $5 \times 5 = \square\square$
27. $5 \times 11 = \square\square$
28. $6 \times 10 = \square\square$
29. $2 \times 7 = \square\square$
30. $9 \times 5 = \square\square$
31. $8 \times 2 = \square\square$
32. $9 \times 8 = \square\square$
33. $6 \times 6 = \square\square$
34. $4 \times 12 = \square\square$
35. $1 \times 3 = \square$
36. $5 \times 9 = \square\square$
37. $7 \times 10 = \square\square$
38. $8 \times 11 = \square\square$
39. $4 \times 7 = \square\square$
