

The Times Tables — 4.3

Repeating these facts **out loud** will help you learn them faster.

1. $3 \times 10 = \square\square$

14. $5 \times 4 = \square\square$

27. $7 \times 11 = \square\square$

2. $4 \times 11 = \square\square$

15. $7 \times 12 = \square\square$

$6 \times 9 = \square\square$

3. $2 \times 6 = \square\square$

16. $5 \times 11 = \square\square$

29. $5 \times 6 = \square\square$

4. $7 \times 8 = \square\square$

17. $5 \times 12 = \square\square$

30. $6 \times 10 = \square\square$

5. $7 \times 2 = \square\square$

18. $3 \times 6 = \square\square$

31. $3 \times 7 = \square\square$

6. $6 \times 4 = \square\square$

19. $2 \times 4 = \square$

32. $6 \times 11 = \square\square$

7. $6 \times 5 = \square\square$

20. $3 \times 5 = \square\square$

33. $7 \times 4 = \square\square$

8. $6 \times 6 = \square\square$

21. $4 \times 8 = \square\square$

34. $7 \times 5 = \square\square$

9. $7 \times 6 = \square\square$

22. $5 \times 8 = \square\square$

35. $7 \times 7 = \square\square$

10. $7 \times 3 = \square\square$

23. $7 \times 10 = \square\square$

36. $4 \times 3 = \square\square$

11. $10 \times 9 = \square\square$

24. $10 \times 8 = \square\square$

37. $5 \times 3 = \square\square$

12. $1 \times 8 = \square$

25. $3 \times 9 = \square\square$

38. $6 \times 12 = \square\square$

13. $6 \times 7 = \square\square$

26. $7 \times 9 = \square\square$

39. $2 \times 10 = \square\square$
