

The Times Tables — 4.3

Repeating these facts out loud will help you learn them faster.

1. $3 \times 10 = \square\square$
2. $4 \times 11 = \square\square$
3. $2 \times 6 = \square\square$
4. $7 \times 8 = \square\square$
5. $7 \times 2 = \square\square$
6. $6 \times 4 = \square\square$
7. $6 \times 5 = \square\square$
8. $6 \times 6 = \square\square$
9. $7 \times 6 = \square\square$
10. $7 \times 3 = \square\square$
11. $10 \times 9 = \square\square$
12. $1 \times 8 = \square$
13. $6 \times 7 = \square\square$
14. $5 \times 4 = \square\square$
15. $7 \times 12 = \square\square$
16. $5 \times 11 = \square\square$
17. $5 \times 12 = \square\square$
18. $3 \times 6 = \square\square$
19. $2 \times 4 = \square$
20. $3 \times 5 = \square\square$
21. $4 \times 8 = \square\square$
22. $5 \times 8 = \square\square$
23. $7 \times 10 = \square\square$
24. $10 \times 8 = \square\square$
25. $3 \times 9 = \square\square$
26. $7 \times 9 = \square\square$
27. $7 \times 11 = \square\square$
28. $6 \times 9 = \square\square$
29. $5 \times 6 = \square\square$
30. $6 \times 10 = \square\square$
31. $3 \times 7 = \square\square$
32. $6 \times 11 = \square\square$
33. $7 \times 4 = \square\square$
34. $7 \times 5 = \square\square$
35. $7 \times 7 = \square\square$
36. $4 \times 3 = \square\square$
37. $5 \times 3 = \square\square$
38. $6 \times 12 = \square\square$
39. $2 \times 10 = \square\square$
