

The Times Tables — 4.5

Skip counting is a good way to find any answers you do not know.

1. $3 \times 8 = \square\square$
2. $7 \times 6 = \square\square$
3. $4 \times 3 = \square\square$
4. $2 \times 10 = \square\square$
5. $10 \times 3 = \square\square$
6. $6 \times 2 = \square\square$
7. $7 \times 9 = \square\square$
8. $7 \times 2 = \square\square$
9. $4 \times 11 = \square\square$
10. $5 \times 12 = \square\square$
11. $6 \times 12 = \square\square$
12. $10 \times 11 = \square\square\square$
13. $2 \times 7 = \square\square$
14. $2 \times 2 = \square$
15. $7 \times 5 = \square\square$
16. $6 \times 8 = \square\square$
17. $5 \times 9 = \square\square$
18. $3 \times 11 = \square\square$
19. $7 \times 12 = \square\square$
20. $10 \times 7 = \square\square$
21. $4 \times 1 = \square$
22. $4 \times 9 = \square\square$
23. $3 \times 10 = \square\square$
24. $7 \times 4 = \square\square$
25. $10 \times 10 = \square\square\square$
26. $4 \times 6 = \square\square$
27. $5 \times 7 = \square\square$
28. $7 \times 7 = \square\square$
29. $4 \times 4 = \square\square$
30. $5 \times 10 = \square\square$
31. $10 \times 4 = \square\square$
32. $5 \times 3 = \square\square$
33. $6 \times 11 = \square\square$
34. $2 \times 12 = \square\square$
35. $6 \times 6 = \square\square$
36. $7 \times 3 = \square\square$
37. $10 \times 9 = \square\square$
38. $4 \times 12 = \square\square$
39. $3 \times 3 = \square$
